Lumen® Phase contains a green colorant that provides an even deep color when applied to turf. Lumen® Phase can improve the visual appearance of turf and provides a lasting green color.

KEEP OUT OF REACH OF CHILDREN

WARNING

MAY CAUSE AN ALLERGIC SKIN REACTION

PRECAUTIONARY STATEMENTS: Avoid breathing fume / gas / mist / vapors / spray. For specific treatment see supplemental first aid instruction on this label.

PERSONAL PROTECTIVE EQUIPMENT: Wear protective gloves / protective clothing / eye protection / face protection. Contaminated work clothing must not be allowed out of the workplace

FIRST AID: IF ON SKIN Wash with plenty of water. If skin irritation or rash occurs, get medical advice / attention. Wash contaminated clothing before reuse.

DISPOSAL: Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation

DIRECTIONS FOR USE:

SHAKE WELL BEFORE USE!

Lumen® Phase requires agitation immediately before application.

General Turf Color Enhancement:

Apply at the rate of 3-5 gallons per acre (9-15 ounces / 1,000 ft²) in at least 45 gallons of water. Higher rates (up to 5 gallons per acre) may be necessary depending on the condition of the turf (i.e. nutrient deficient turf, diseased turf, etc.)

Dormant Turf (non-overseeded Bermudagrass)

Best results are achieved when an initial application of 5 gallons per acre (15 ounces/1,000 ft²) are applied to turf just prior to onset of complete dormancy. Follow-up applications at 2-3 gallons per acre applied every 3-6 weeks or as required based on traffic, rainfall and/or desired color.

KEEP PRODUCT FROM FREEZING.
