SP RAPID GREEN 20-0-20

GUARANTEED ANALYSIS

Total Nitrogen (N)	20.0%
9.0% Ammoniacal Nitrogen	
5.9% Nitrate Nitrogen	
5.1 % Urea Nitrogen	
Soluble Potash (K ₂ O).....	20.0%
Boron (B)	0.02%
Copper (Cu).....	0.05%
0.05% Chelated Copper	
Iron (Fe)	0.1%
0.10% Chelated Iron	
Manganese (Mn)	0.05%
0.05% Chelated Manganese	
Molybdenum (Mo).....	0.0005%
Zinc (Zn)	0.05%
0.05% Chelated Zinc	
Derived From: Potassium nitrate, urea, ammonium nitrate, potassium sulfate, sodium borate, copper EDTA, iron EDTA, manganese EDTA, sodium molybdate and zinc EDTA.	

KEEP OUT OF REACH OF CHILDREN
WARNING
CAUSES SKIN IRRITATION. CAUSES EYE IRRITATION.
MAY CAUSE RESPIRATORY IRRITATION.

PRECAUTIONARY STATEMENTS

Avoid breathing mist / spray. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Call a poison center / doctor if you feel unwell. Specific treatment see First Aid section on this label.

Personal Protective Equipment:

Wear protective gloves / protective clothing / eye protection / face protection. Take off contaminated clothing and wash before reuse.

FIRST AID

IF ON SKIN: Wash with plenty of water. If skin irritation occurs get medical advice / attention.

IF INHALED: Remove person to fresh air and keep comfortable for breathing.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists get medical advice /attention.

STORAGE AND DISPOSAL

STORAGE: Store in a well-ventilated place. Keep container tightly closed. Store locked up.
DISPOSAL: Dispose of contents / container in accordance with local / regional / national regulations.

SP Rapid Green® 20-0-20 with micronutrients is a multi-purpose fertilizer whose nutrients become plant-available when applied as a water based solution to both leaves and roots. A balanced ammoniacal and nitrate feed will provide quick plant response even during cool, dry conditions. Micronutrients are chelated to promote a sustained plant response. SP Rapid Green may be applied with fungicides, herbicides, insecticides or miticides as a spray tank mix or through a proportioner for fertigation.

DIRECTIONS FOR USE

General: Apply in solution at the rate of 1 pound in 5 to 20 gallons of water. Apply in early morning or late afternoon, avoiding periods of heavy direct sunlight. For best results, premix the required amount in water prior to adding to the spray tank or concentrate tank. This material dissolves faster in warm water. It gives off an endothermic reaction (turns icy cold) when it is being dissolved.

LIMITED WARRANTY AND DISCLAIMERS

J. R. Simplot Company ("Seller") warrants that the product contains the ingredients in the amounts stated on this label. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES AND REPRESENTATIONS EXPRESSED, IMPLIED, OR STATUTORY, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE. Timing, rate and method of application, weather and other conditions, mixtures with chemicals not specifically recommended on this label or any accompanying written recommendation are beyond the control of Seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith. In no case is J. R. Simplot Company liable for consequential, special or indirect damages resulting from the use or handling of this product. Buyer further agrees in the event of damages arising from the use of this product to accept a replacement of the product or a refund of the purchase price of the product, at Seller's option, as full discharge of Seller's liability. No one is authorized to make any other warranty, guarantee or directions concerning this product, and no such warranties, guarantees or directions shall be valid or binding upon Seller.

Sprayers: Use a sprayer with a boom, floodjet, handgun, or similar applicator. Calibrate sprayer to determine the area covered per tank. Determine amount of SP Rapid Green required at the rate of N per 1,000 square feet you wish to apply using the following chart:

Total lbs. material / 1,000 ft ²	Total lbs. Nitrogen/ 1,000 ft ²	Total lbs. Nitrate-N / 1,000 ft ²	Total lbs. Ammoniacal-N / 1,000 ft ²	Total lbs. Urea-N / 1,000 ft ²	Total lbs. K ₂ O/ 1,000 ft ²
1.25	.25	.07	.12	.065	.25
2.50	.50	.14	.24	.130	.50
3.75	.75	.22	.36	.200	.75
5.00	1.00	.30	.45	.250	1.00

Multiply total sprayer coverage by weight required. This determines the amount required per tank load. Example: If full sprayer tank will cover 11,000 square feet and you desire to apply ¼ of a pound N per 1,000 square feet, this would require 220 ounces (11 X 20 = 220 ounces or 13.75 pounds) per tank load.

Sprinkler and Irrigation-Proportioners:

Weight per Area Method: Determine the coverage of the sprinkler system in square feet for the time it takes to empty the concentrate tank. Multiply this area (dividing by 1,000) times the ounces of fertilizer required to achieve the desired rate of N in the chart.

RATE PER ACRE OF PRODUCT TO ACHIEVE		
1/8 lb. N / 1,000 ft ²	1/4 lb. N / 1,000 ft ²	1/3 lb. N / 1,000 ft ²
27.5 lbs.	55 lbs.	72.5 lbs.
