

PRINCIPAL FUNCTIONING AGENTS

Diethylene glycol,
polyether-polymethylsiloxane-copolymer,
alkylphenol ethoxylate, dimethylpolysiloxane **100%**
TOTAL **100%**

All ingredients are exempt from the requirement of a tolerance under 40 CFR 180
CA Reg. No. 7001-50015 WA Reg. No. 7001-08001

KEEP OUT OF REACH OF CHILDREN

WARNING

HARMFUL IF SWALLOWED. CAUSES SKIN IRRITATION. CAUSES
SERIOUS EYE IRRITATION.

PRECAUTIONARY STATEMENTS

Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Specific treatment see first aid section on this label. Dispose of contents/container in accordance with federal / state / local regulations.

Personal Protective Equipment: Wear protective gloves/protective clothing/eye protection/face protection. Take off contaminated clothing and wash before reuse.

FIRST AID

If Swallowed: Rinse mouth. Call a poison center/doctor if you feel unwell.

If on Skin: Wash with plenty of water. If skin irritation occurs get medical advice/attention.

If in Eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists get medical advice/attention.

If inhaled: Assure fresh air for breathing.

GENERAL INFORMATION

FOR PROFESSIONAL USE ONLY.
NOT FOR AQUATIC USE.

SPRAY-FAST is a superior nonionic wetting agent designed for water based herbicide application in agriculture, horticulture, industrial, turf and forestry operations. It is designed for fast spreading, uniform distribution and absorption of spray on leaf and stem surfaces. SPRAY-FAST may be used with most pesticides and fertilizer products. Optimum application and consequent effects can be influenced by many factors. It is recommended that the spray be observed and adjuvant rates be adjusted accordingly. During application, insure thorough coverage without excessive runoff.

NET CONTENTS: 1 Gallon (3.48 Liters)

Product number: 100411G

SPRAY-FAST[®]

Humectant / Nonionic Surfactant /
Wetting Agent / Defoaming Agent

DIRECTIONS FOR USE

Suggested rates for use with the various categories of chemicals are as follows:

Chemical Group	Ounces of SPRAY-FAST to add per 100 gallons of spray mixture
Insecticides, Miticides & Fungicides.....	6 - 32 oz.
Herbicides.....	12 - 64 oz.
Glyphosate formulations w/o added surfactants.....	12 - 64 oz.
Defoliant & Desiccants.....	12 - 64 oz.
Fertilizers & Micronutrients.....	4 - 32 oz.

NOTE: Carefully read and follow the specific directions contained on the label of the chemical used. Before adding SPRAY-FAST to spray tank mixes or before using with a pesticide or fertilizer where a nonionic adjuvant is not specifically recommended but not prohibited by the manufacturer, the user or application advisor must have experience with the combination or must have conducted a phytotoxicity trial of their own. For local recommendations, consult a competent agricultural authority. Water Penetration of Hard-to-Wet Soils: For most efficient water penetration of hard-to-wet soils and the even distribution of applied moisture, use 1 pint per 100 gallons of water as a spot or area treatment.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Storage: Store above 32° F. Store in a well-ventilated space. Keep container tightly closed. Store away from heat or open flame and oxidizing materials. Disposal: Wastes resulting from this product may be disposed of on site or at an approved waste disposal facility. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill. Dispose of contents/container in accordance with local/national regulations.

ENVIRONMENTAL HAZARDS

Do not contaminate water sources by cleaning of equipment or disposal of wastewater.

MIXING

Spray mixing and application equipment must be cleaned according to cleaning directions on prior pesticide label before application. To minimize and help prevent foaming, fill tank 2/3 to 3/4 full of water. Add pesticides and/or fertilizers as directed by label or in the following sequence:

- 1) Micronutrients and fertilizer;
- 2) Dry flowables and dispersible granules;
- 3) Flowables;
- 4) Water soluble pesticides;
- 5) Emulsifiable concentrates.

While agitating, add SPRAY-FAST and mix for 1 to 2 minutes with lower than normal agitation. Continue filling tank maintaining minimal agitation. For most effective results, apply within 36 hours after mixing.

DISCLAIMER OF WARRANTIES

Seller warrants that the chemical composition of this product conforms to the chemical description given on this label. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES AND REPRESENTATIONS EXPRESSED, IMPLIED, OR STATUTORY, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE. Timing, rate and method of application, weather and crop conditions, mixtures with chemicals not specifically recommended on this label or an accompanying written recommendation are beyond the control of seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith. Buyer further agrees in the event of damages arising from the use of this product to accept a replacement of the product or a refund of the purchase price of the product, at buyer's option, as full discharge of seller's liability. No one is authorized to make any other warranty, guarantee or directions concerning this product, and no such warranties, guarantees, or directions shall be valid or binding upon seller.
