DAKOTA

Soil Movers

Dakota make a range of tractor towed soil movers for moving and levelling soil and sand. Ideal for landscaping, grading and shaping during the construction or repair work on golf courses, sports fields or other amenity sites. With ripper teeth fitted, more aggressive work can be carried out, such as breaking up compacted ground or pathways. Features include hydraulic height control, standard hydraulic two-way tilt on rear wheels (on 2.4m and 3.0m models only), hydraulically retractable ripper teeth & bolt-on straight edge. Available in three working widths. Can be adapted for laser levelling either single grade or dual grade.

Specification

Working widths	1206 = 1.8m wide
	1208 = 2.4m wide
	1210 = 3.0m wide
Ripping teeth	1206 = 6 hydraulically lifting teeth
	1208 = 8 hydraulically lifting teeth
	1210 = 12 hydraulically lifting ripper teeth
Tyres	2 x 26.5 -14 x 12

Campey supply market leading, innovative turf care machinery worldwide, we're continually researching new techniques and refining existing practices to help turf care professionals achieve perfection.
