UltraMax™ Blue

- Best combination of weight, durability, flexibility, pressure strength & flow rate
- Soft & flexible - won't scuff greens
- Available in 3/4" GHT & 1" NPSH

≈ 1200 psi Burst / 300 psi Operating
 ≈ \$\$\$\$ - Premium Quality
 ≈ 3/4" = 27 lbs, 1" = 43 lbs (per 100 ft)
 ≈ Best Professional PVC Hose

UltraMax™ Featherweight

- Extremely lightweight, high pressure rating, highly kink resistant, easy to roll & maneuver
- Smooth outer fabric slides over turf without scuffing
- Available in 3/4" GHT & 1" NPSH

≈ 1200 psi Burst / 300 psi Operating
 ≈ \$\$\$\$ - Premium Quality
 ≈ 3/4" - 9 lbs, 1" = 15 lbs (per 100 ft)
 ≈ Lightest Professional Hose

UltraMax™ Red

- Ultimate choice for long life under heavy use
- Made of EPDM synthetic rubber
- Kink, tangle & weather resistant
- Available in 3/4" GHT & 1" NPSH

≈ 800 psi Burst / 200 psi Operating
 ≈ \$\$\$\$ - Heavy Duty
 ≈ 3/4" = 38 lbs, 1" = 59 lbs (per 100 ft)
 ≈ Best Longevity and Ability to Drag

UltraMax™ Green

- Lightweight with a high burst pressure rating
- Smooth outer texture won't scuff greens
- Thick, durable outer wall
- Available in 3/4" GHT & 1" NPSH

≈ 800 psi Burst / 200 psi Operating
 ≈ \$\$\$ - Professional Quality
 ≈ 3/4" = 28 lbs, 1" = 38 lbs (per 100 ft)
 ≈ Lighter Weight & Smooth Exterior

UltraMax™ Clear

- Lightweight & economical
- Thick, durable outer wall
- Ideal for light to medium commercial duty
- Available in 3/4" GHT & 1" NPSH

≈ 600 psi Burst / 150 psi Operating
 ≈ \$\$\$ - Professional Quality
 ≈ 3/4" = 20 lbs, 1" = 32 lbs (per 100 ft)
 ≈ Lightweight & Economical

ProLine™ Featherweight

- Extremely lightweight
- Tough outer polyester fabric stands up to wear and tear
- Outer springs prevent bending/kinking at connections
- Available in 3/4" GHT

≈ 800 psi Burst / 200 psi Operating
 ≈ \$\$\$ - Premium Quality
 ≈ 3/4" = 9 lbs (per 100 ft)
 ≈ Lightest Commercial Hose

ProLine™ Gold

- Economical multi-purpose, commercial quality hose
- Made from the same material as UltraMax™ blue hose
- Flexible & lightweight with Zero-Kink technology
- Available in 5/8" & 3/4" (both with 3/4" GHT connections)

≈ 500 psi Burst / 125 psi Operating
 ≈ \$\$ - Commercial Quality
 ≈ 5/8" = 15 lbs, 3/4" = 20 lbs (per 100 ft)
 ≈ Commercial / Residential Use

ProLine™ Rubber

- 20% lighter than standard rubber hose
- Tough rubber material is abrasion resistant
- Handles hot water up to 212°F
- Available in 5/8" & 3/4" (both with 3/4" GHT connections)

≈ 500 psi Burst / 150 psi Operating
 ≈ \$\$ - Commercial Quality
 ≈ 5/8" = 21 lbs, 3/4" = 27 lbs (per 100 ft)
 ≈ Agricultural & Commercial Use

ProLine™ Light Duty

- Perfect for Light-Duty Use
- Smooth finish & lightweight
- Standard 3/4" hose thread brass couplings
- Available in 5/8" x 50 ft length

≈ 300 psi Burst / 100 psi Operating
 ≈ \$ - Residential Quality
 ≈ 5/8" = 5 lbs (per 50 ft)
 ≈ Affordable, Residential Hose

Magnum™ UltraMAX *Premium Plus* PRO Series

MADE OF SUPER HEAVY DUTY METAL ALLOY, AND TPR RUBBER

Step up to the most professional nozzle you can buy - MAGNUM™ UltraMax Firefighter quality for professionals in any field, these variable flow, multi-function nozzles are virtually indestructible and leak proof. The innovative TURBO SHIFT models provide two distinct GPM ranges. And the outstanding distribution patterns of all MAGNUM UltraMAX nozzles make them excel in high demand areas like greens/tees, infield conditioning and equipment and stadium washdowns.

TURBO SHIFT

Dual Variable Flow: Delivers light fog and low volume jet stream patterns before shifting to high volume jet stream and fan patterns.

High Flow Model:
Opens with 12-17 GPM (45-64 L/min)
Turbo Shifts to 20-43 GPM (76-163 L/min)
Super High Flow Model:
34-104 GPM (129-394 L/min)

features / specifications

- Multi-Pattern Spray: Fog, Jet Stream, Fan
- Built for 1" NPSH and 3/4" Hose Flow Rates (range: 7-43 GPM)
- Nozzles and Valves rated at 600 psi working pressure

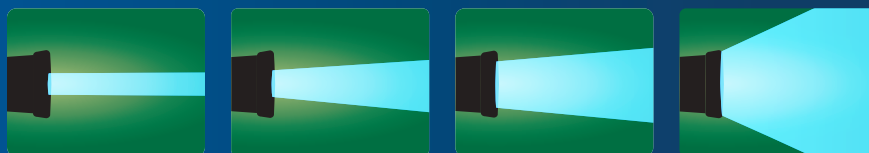

FULL THROTTLE

Single Variable Flow: Delivers steady, maximum volume fog, jet stream and fan patterns.

High Flow Model: 15-40 GPM (57-151 L/min)

Super High Flow Model:
39-100 GPM (148-379 L/min)

Magnum™

SOLID METAL HOSE NOZZLE

Our Magnum™ nozzle is precision-machined with very smooth operation and outstanding distribution patterns make it ideal for high-demand areas like greens and tees. Magnum™ is also an excellent equipment wash-down nozzle.

features

- Solid metal internal - no plastic parts to break or wear out
- Multi-pattern sprays - effortless control with hydraulic assist on/off
- Ratchet mechanism prevents over-tightening damage
- Fire hose quality nozzle feels great in your hands
- Built for 1" and 3/4" flow rates

Variable Sprays for Any Application

Hose End Valves

PowerFLOW™ Series Control Valves

WORKS GREAT WITH ALL OUR NOZZLES
Heavy Duty Brass Construction Built to Last!

features

- Heavy Duty Brass Valve with Brass Shut-Off Lever
- Full Flow Rates Allow Up to 48 Gpm (on 1-Inch Model), Higher Than Any Other Control Valve
- Easily Control Water Flow with Nothing More Than Your Thumb
- 1-inch NPSH or ¾-inch GHT Threads

Also available in ¾" Shut-Off Valve

Extra Large Opening for High Flow Operation compared to competitor

PowerFLOW Series

CoolPro™

**COOL WITHOUT OVER WATERING
- NO ROOT DAMAGE**

A hot summer day can be murder on your greens. Use too much water and you risk damage to the roots. CoolPro™ is the first nozzle specifically designed for the single purpose of lightly misting the turf canopy to cool without over watering. And its 25 foot fogging pattern gets the job done quickly.

features

- Precision™ Nozzle Fogs at 70 PSI to Deliver a 25 ft. Pattern with Only 4-6 GPM
- ¾" Inlet (1" Brass Adapter Available)
- Ergonomic Handle/Valve Provides Easy Grip and Variable On/Off Control
- Durable Solid Metal Design

Perfect for tournament play, CoolPro™ puts down only enough water to cool the turf canopy. It prevents wilting while maintaining good ball speed.

DrainBlaster™

HIGH PRESSURE DRAIN CLEANING NOZZLE

This unique hose-end, high pressure nozzle guides itself in cleaning out drains, to remove debris with ease. Special feature includes a wire attachment connector for using wire locator to determine drain route.

features

- Front jet cuts through blockage
- Minimum water pressure: 70 psi
- Rear jets propel nozzle upline
- Heat treated grade 303 Stainless Steel for long life
- Two stage flushing action
- Great for sleeving under sidewalks or cart paths

Ideal for 4" - 6" drains and catch basins

Perfect for sleeving under sidewalks

Wire attachment connector for mapping drain location under greens, bunkers and other locations using a wire locator.

Precision™ Nozzle Kits

precision watering
for specific tasks

SOLID METAL, SPECIFIC TASK HOSE NOZZLES

Underhill® Precision™ nozzles deliver millions of soft, uniform droplets to provide rapid yet surprisingly gentle water application over a huge range of flow rates. From soft watering to powerful drenching, patented Precision nozzles are designed with ideal flow rates and droplet sizes to fully irrigate without disturbing turf, dirt, seeds, etc., providing a precise solution for every hand watering application.

- CoolPro™ TASKS:** Greens, tees, seed beds, transplants, delicate landscaping (4-6 GPM)
Rainbow™ TASKS: Greens, tees, seed beds, transplants, delicate landscaping (15 GPM)
Rainmaker™ TASKS: Syringe and spot watering turf and hardy landscaping (23 GPM)
Cloudburst™ TASKS: Dry spots, drenching, and wetting agent application (35+ GPM)
Cyclone™ TASKS: Pre-game skins watering, heavy watering of large areas, ideal for hydroseeding (50+ GPM)

Note: GPM will vary with pressure at nozzle

DeepDrip™

TREE WATERING STAKES

Water and fertilize your trees at the roots, encouraging deeper roots and healthier trees with DeepDrip™ stakes. Water gets underground fast, so you can irrigate for shorter periods and save water. They also help aerate the soil, and you can add fertilizer into the shaft to direct nutrients to the root zone.

Three Lengths For All Tree Sizes: Use the 14.5" stake for shallow root trees and shrubs, like rose bushes and ornamental trees (or boxed trees). The 24.5" stake is best for most other tree varieties except for palms and similarly deeper rooted trees, which will benefit from the longer 36" stakes.

Built Smart - And Easy To Use: The DeepDrip's reinforced tip and cap are made from ABS and the upper shaft is made from Schedule 40 PVC. Multiple holes in the bottom half of the spike, internally covered by a mesh filter, allow water to flow out but keep dirt from getting in and clogging the tube. The UV-protected cap acts as a reinforced cover when pounding the stake into the ground, keeps debris from entering the shaft and holds a 1/4" drip line/emitter securely in place. By inserting a screwdriver through the two holes at the top of the upper shaft, stakes can be easily pulled up to remove/reposition, or rotated to deter root invasion.

ADD TO EXISTING TREES! Install DeepDrip™ stakes during or after tree planting for instant access to the root system for fertilizer delivery or to set up deep automatic drip watering.

1 1/2" MPT x 1 1/4" FPT outlet
1 1/2" FPT inlet

Patent Pending

The Claw™

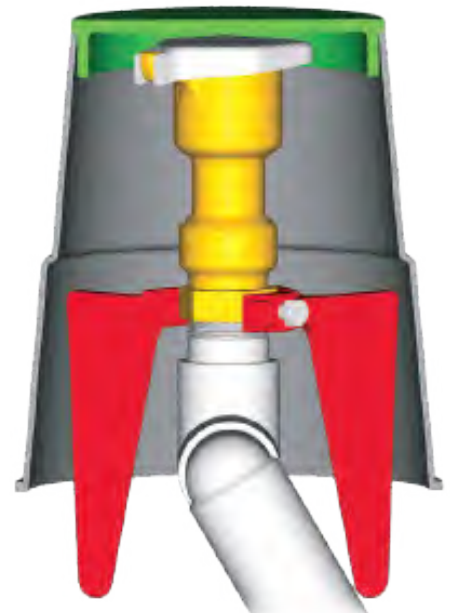

QUICK COUPLER MOTION RESTRAINT

When quick coupler valves become unscrewed from swing joints, it's more than just a hassle - it can be dangerous. The Claw™, new from Underhill®, offers a simple solution. Embedded in the soil below the quick coupler, and then securely attached to its base, The Claw provides significant resistance to rotational, vertical and horizontal motion, preventing the valve from moving. Made from high strength ductile iron, this compact anchor attaches easily with a single steel bolt.

EASY RETROFIT! Installs Without Removing Valve or Valve Box - Fits in 6" Round Box or Larger!

Ultra Brass™ *Gold Series* Impact Sprinklers

Solid Brass, Ultra-Reliable Work Horses for Reliable, Trouble-Free, High-Performance Year after Year... You Can't Beat Our Proven Impact Drive Sprinklers. Designed with High Uniformity Nozzles, Available in Full Circle and Full/Part Circle Models Along with Additional Nozzle (Gpm/Radius) Options.

Full Circle Sprinklers

Part # SI075F
3/4" MPT Full Circle
 GPM: 11
 Radius (ft.): 50

Part # SI100F
1" MPT Full Circle
 GPM: 25.4
 Radius (ft.): 66

Part # SI125F
1 1/4" MPT Full Circle
 GPM: 48.3
 Radius (ft.): 93

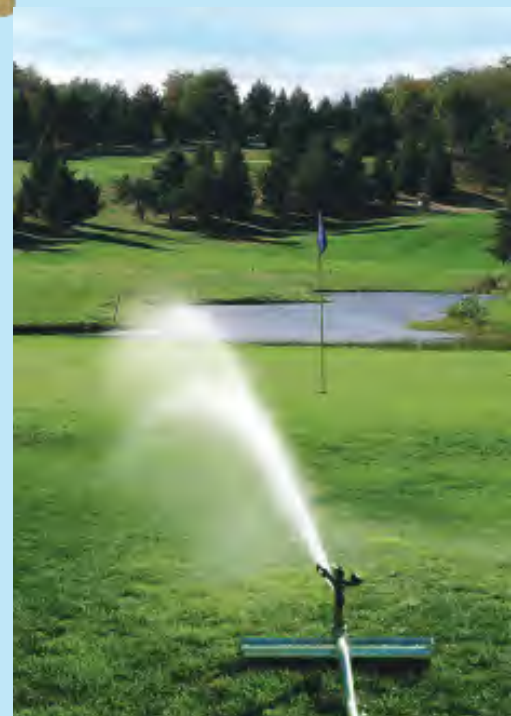

features

- Solid Brass Construction
- Stainless Steel Drive Spring
- Bearing Assemble Hood for longer wear life
- Chemical Resistance Bearing Seals
- Straight-Flow, Low Pressure Loss
- Standard Solid Brass Nozzle included

Performance data shown with standard nozzle set @ 80 psi

ordering	Full Circle	GPM	Radius (ft.)
Part # SI075F	3/4" MPT Full Circle	11	50
Part # SI100F	1" MPT Full Circle	25.4	66
Part # SI125F	1 1/4" MPT Full Circle	48.3	93

GPM and radius will vary with pressure at sprinkler

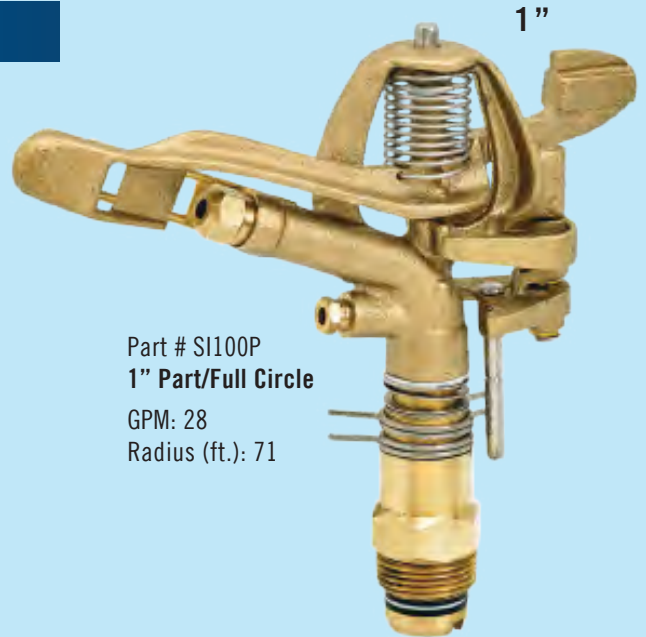

Ultra Brass™ *Gold Series* Impact Sprinklers

Part/Full Circle Sprinklers

Part # SI075P
 3/4" MPT Part/Full Circle
 GPM: 8.3
 Radius (ft.): 63

Part # SI100P
 1" MPT Part/Full Circle

Part # SI100P	1" MPT Part/Full Circle	28	71
Part # SI125P	1 1/4" MPT Part/Full Circle	66	94

GPM and radius will vary with pressure at sprinkler

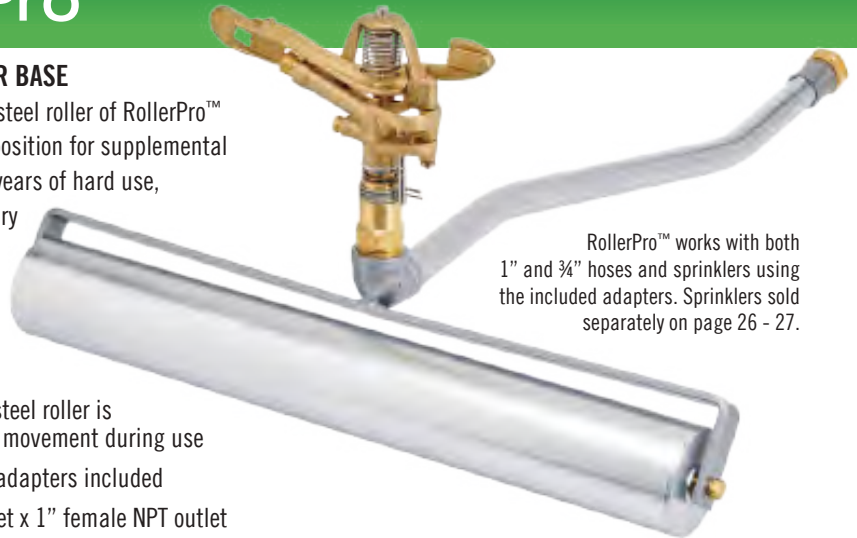

RollerPro™

PORTABLE SPRINKLER BASE

The 22" wide stainless steel roller of RollerPro™ provides a stable field position for supplemental watering. Designed for years of hard use, it is ideal for watering dry spots and newly seeded areas.

features

- 22" wide stainless steel roller is weighted to prevent movement during use
- ¾" inlet and outlet adapters included
- Standard 1" FHT inlet x 1" female NPT outlet

RollerPro™ works with both 1" and ¾" hoses and sprinklers using the included adapters. Sprinklers sold separately on page 26 - 27.

SpotShot™

LOW VOLUME PORTABLE SPRINKLER KIT

SpotShot™ is an expandable sprinkler system kit ideal for turf areas requiring low volume watering for extended periods. Connect the Starter Kit to a quick coupler (or golf sprinkler with the HoseTap™ on page 18) and connect Add-On Kits for larger area needs.

Starter Kit includes 20' of ½" flexible PVC tubing with connection fittings, pressure regulator, sprinkler base and low volume rotating sprinkler (20 ft. radius / 0.65 GPM - 0.16 in./hr.)

Add-On Kit includes 20' of ½" flexible PVC tubing with connection fittings, sprinkler base and low volume rotating sprinkler (20 ft. radius / 0.65 GPM - 0.16 in./hr.)

Micro-Sprinkler Options

- 20 ft. radius / 0.65 GPM (0.16 in./hr.)
- 20 ft. radius / 1.2 GPM - (0.26 in./hr.)

ideal for

- Leaching salts on greens
- Targeting hot spots on fairways, roughs, etc.
- Mound watering
- New seed grown in
- Other low volume watering

SuperKey XL™

MULTI-PURPOSE TOOL FOR TORO, RAINBIRD GOLF SPRINKLERS

The ultimate all-in-one tool for your golf sprinklers... think of it as a Swiss army knife, a must have companion. Made of stainless steel and composite material, it effortlessly turns electric valve-in-heads on and off, removes internal snap rings and performs many other sprinkler maintenance chores. Great for John Deere®/Signature® sprinklers, too!

EasyReach™ Key

EXTRA-LONG SHAFT ON/OFF KEY

Extra long and extra heavy duty metal key designed for easy On/Off operation for TORO, Rain Bird and John Deere/Signature electric valve-in-head golf sprinklers. Made of high grade metal, EasyReach offers years of effortless on/off operation.

DOUBLE-Header™

SELECTOR VALVE KEY TOOL

The Double-Header™ On/Off Key for RainBird, Toro or John Deere/Signature irrigation heads conveniently mounted on a key ring.

features

- Extra clean-out tool for clearing around selector valve or makes a great snap ring tool in a pinch
- Never lose a flag key again with this mounted on your key chain
- Put one on all utility vehicle or equipment key rings so there is always a key for quickly turning off a stuck head or hitting a dry spot with water
- Sold in a package of 9 keys with key rings included

GREAT FOR:
TORO, RAINBIRD
and MORE

Part # A-DH	Double-Header™ Selector Valve Key Tool (9 Tools/pack)

POWERTM GULP

PROFESSIONAL WATER REMOVAL PUMP

POWER UP YOUR PUMPING GAME!

We've taken our premium Gulp Pro line to the next level with our new POWERGulpTM. Pumping just got so much easier with the flip of a switch and the ability to pump 11 GPM even in the dirtiest of water.

Features & Benefits

- Interchangeable battery plates sold separately to work with major brand batteries (Milwaukee®, DeWalt®, Makita® or Bosch®)
- Discharge can be either Gulp tubing, 3/4 inch hose or 1 inch hose (adapters included)
- Industry leading MudGuardTM filters out debris in the dirtiest of water allowing clog free suction
- The only pump that works well in dirty water
- Battery lasts up to 60 minutes per charge and pumps 11 GPM

Pump Specifications

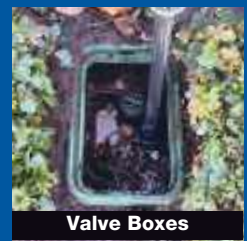

- Flow Rate - 11 GPM
- Length - 48"
- Weight - 4 lbs (without battery)
- Battery Run Time - Up to 60 Minutes w/ 4 Amp Hr. Battery
- Head Height - 15 ft
- Not For Use on Flammable Liquids
- 18 Volt

Recommended Use For:

Irrigation Repairs

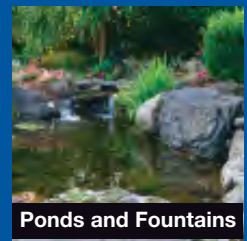

Valve Boxes

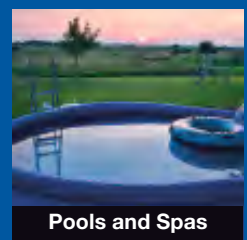

Catch Basins

Golf Courses
and Landscape

Ponds and Fountains

Pools and Spas

POWERGulpTM

Part # A-PG-18V

PUMP PARTS & ACCESSORIES

POWER GULP™

Battery Adapter Plates

WHY PURCHASE ANOTHER BRAND OF BATTERY AND CHARGER WHEN YOU CAN USE YOUR CURRENT BRAND BATTERIES WITH THE UNDERHILL® POWERGULP™.

Simply purchase the correct adapter plate for your 18-20V slide-style battery and install on the PowerGulp with four easy screws.

- Interchangeable battery adapter plates available for Milwaukee®, DeWalt®, Makita® and Bosch®

Underhill® Battery & Charger

Don't have another brand already? No problem, just use the affordable Underhill® brand battery and charger and get your pump running immediately for 60 minutes of run time!

features

- 4 Amp Hr. 18 Volt battery
- Slides into stock plate on PowerGulp
- Battery only or Battery and Charger

POWERGulp™ Quick-Stand

Use this clamp-on stand to keep your pump upright and working without you holding it. (stand not pictured)

features

- Great for pumping out bunkers or mainline repairs
- Lightweight and detachable

EARLY STRESS DETECTION GLASSES

Disease, drought and weed invasion are plant and turf killers. But by the time you see them it can be too late. TurfSpy™ glasses, with stress detection technology developed by NASA, lets you “see into the future” to identify problems 2-10 days before they are visible to your naked eye. Keep your turf and vegetation healthy BEFORE serious problems arise.

fusarium patch

pythium blight

yellow patch (rhizoctonia)

brown patch

anthracnose

get a jump on broken or poor-performing sprinklers

highly efficient spot watering saves time and labor costs

superior weed location and spraying saves time and money

features

- Shatterproof/polycarbonate stress detection lens (ANSI approved safety lens)
- Wrap-around lens limits ambient light for optimal detection
- Sports frame with adjustable ear piece
- Lightweight case included

HOW IT WORKS

Dying vegetation absorbs and reflects sunlight differently than when it's healthy. The earliest signals occur at the outer limits of the human visual spectrum, and are rendered invisible compared to the predominant middle wavelengths. TurfSpy™ filters the light in the center so that fringe spectra, which show early plant stress, become visible.

ordering

Part # NG655-01 TurfSpy™ Glasses and Deluxe Case

Tracker™ 2

PORTABLE IRRIGATION MACHINE

The Tracker™ 2 offers an economical solution for supplementing seasonal watering needs of ¼ acre to 2 acre areas. It's also ideal for irrigating athletic fields, cemeteries, golf course roughs, or other large areas where an underground system is impractical. Built to last with precision German engineering and high quality materials, this portable powerhouse can irrigate an entire football field in just two passes.

Tracker™ 2 requires minimal labor to operate. Powered by water, it pulls itself along a steel cable, dragging up to 325 ft. of 1" reinforced heavy-duty hose (sold separately). Each pass irrigates about 2/3 acre per 8 hours of operations.

features

- Standard full/part circle sprinkler (11-13 GPM)
- 52 - 56 ft. radius
- Automatic shut-off at end of pass
- Water turbine drive and gear box
- 328 ft. steel cable
- Steel anchor stake
- Includes 1" brass Quick-Connect adapter
- Optional speed controller available

Precision German engineering and high quality components built to last!

specifications

- Weight: 81 lbs.
- Size: Length 33" Width 18", Height 22"
- Materials: Aluminum, Brass, ABS
- Minimum Operating Water Pressure: 50 psi
- Hose Required: 1"

ordering

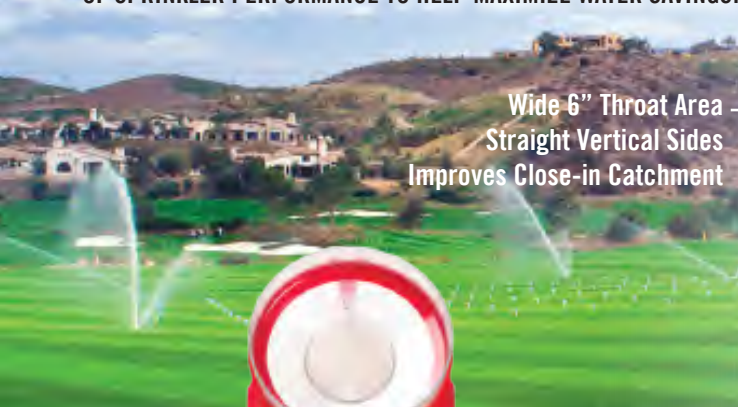

Part # T-400-2 Tracker™ 2 Irrigation Machine
Part # R3SA-1019 Optional By-Pass-Kit for Speed Control

CatchCan **ULTRA**

FINALLY, AN IRRIGATION AUDITING CUP DESIGNED WITH FEATURES THAT GET THE JOB DONE RIGHT, QUICKLY AND ACCURATELY. PRECISE MEASUREMENTS OF SPRINKLER PERFORMANCE TO HELP MAXIMIZE WATER SAVINGS!

BUILT FOR THE PRO

- Easy To Read
- Easy To Transport

Wide 6" Throat Area
Straight Vertical Sides
Improves Close-in Catchment

Stable 3-Legged Stand
Easily Anchors in
Turf and Slopes

Tinted Cup for
Faster Reading

Professional Water Pressure Gauges and Adapters

Dynamic Water Pressure Gauge

THIS IS THE IDEAL TOOL FOR CHECKING ACTUAL WORKING WATER PRESSURE VERSUS STATIC PRESSURE

There are many practical uses for this new specially designed gauge package. Pressure range up to 160 psi.

- Measures both **Dynamic** and **Static** pressure
- Solid Brass construction

ordering

Part # A-HPG-100 Hose end pressure gauge; includes: 1" Female x 1" Male hose connections; 160 psi gauge

Part # A-HPG-075 Hose end pressure gauge; includes: 3/4" Female x 3/4" Male hose connections; 160 psi gauge

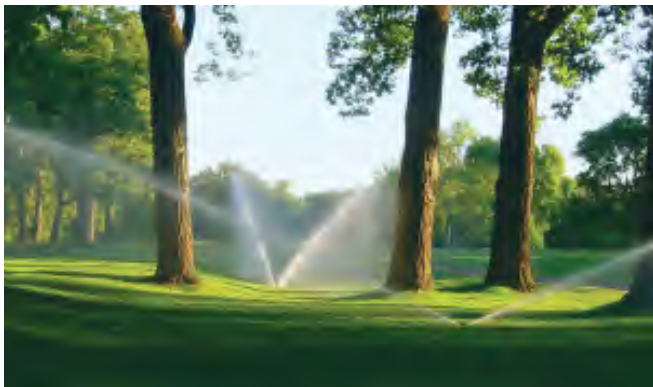

Part # A-HPG-175 Hose end pressure gauge; includes: 1" Female x 3/4" Male hose connections; 160 psi gauge

Specialty Use Pressure Checkers

NOZZLE DISCHARGE PRESSURE GAUGES & ADAPTERS

Use these liquid-filled 160 psi gauge with 30" flex hose and solid brass Pitot tube, hose bib, or spray head and Schrader adapters to measure water pressure at discharge points.

ordering

- Part # A-PHG-160K PressureChecker™, 30" Flex Hose, Pitot tube
- Part # A-HCGPK PressureChecker™ and Pitot tube
- Part # A-SV-160K PressureChecker™ with Schrader Valve Adapter
- Part # A-SHG-160K PressureChecker™ with Spray Head Adapter
- Part # A-HBG-160K PressureChecker™ with 3/4" POC Hose Bib tap
- Part # A-PG160L PressureChecker™ 160 PSI pressure gauge only
- Part # A-HCP Pitot tube only
- Part # A-HBT 3/4" Hose Thread x 1/4" Brass Hose Bib tap
- Part # A-SHA Spray Head Adapter

TURF TESTING

Soil Profiler/Shovel Type Sampler

Part # TSP-8x4

OUR ROBUST SOIL SAMPLER SLIGHTLY TAPERED TO GIVE A CLEAN CUT WITH MINIMAL TURF DISTURBANCE.

- Blade half is easily removed for examination of the soil profile, root depth & density.
- Produces a large flat sample 8" x 4"
- Plug can be replaced with minimum surface disturbance

Soil Sampler 2" Part # TSP-SS

ADJUSTABLE DEPTH GAUGE ALLOWS SOIL SAMPLER TO DOUBLE AS 2" PLUNGER REPAIR. BEST OPTION FOR USE ON SAND PROFILE AREAS OR ANY FINE TURF.

- Designed for use on well watered golf greens
- Open side barrel for easy inspection of soil structure
- Tee handle and hand grips for ease of use
- Hardened steel blade

Soil Probe Part # TSP-12

THE PERFECT TOOL WHERE DEEP SOIL SAMPLING IS REQUIRED. DESIGNED TO PENETRATE HARD SOIL.

- Open side 12" barrel for deep soil penetration and easy inspection of soil structure
- 12" extension bar
- Tee handle and hand grips for ease of use
- Hardened steel leading edge for optimum results

Handy Compact Sampler 3/4" Part # TSP-HS

DESIGNED FOR SMALL CORE SOIL SAMPLES, FAST SIMPLE AND ACCURATE.

- Triple window tine for quick and easy viewing of soil strata near the turf surface
- Lightweight Stainless Steel construction
- Plug size: 3/4" x 9 3/4"
- Removable "T" handle with convenient metal storage container

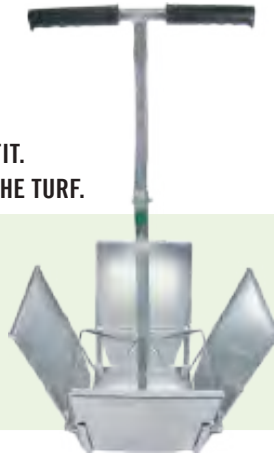

TURF REPAIR

Turf Doctor - Square Turf Repair 6" & 9"

PART # TTD-6 PART # TTD-9

THE IDEAL TOOL FOR FAST AND EXACT TURF SQUARE CUT AND REFIT. COMPLETE REPAIR CAN BE MADE WITH NO GAPS LEFT BETWEEN THE TURF.

- True surface level is maintained
- Plugs fit uniformly in every square hole
- Minimum root loss and quick turf recovery
- Zinc coded aluminum material, made to last

Round Plugger - Turf Repair/Soil Sampler 4" & 6"

Part # TRP-4 Part # TRP-6

FOOT OPERATED AND SPRING LOADED EJECTOR FOR QUICK TURF PLUG REMOVAL. IDEAL FOR EXTRACTING DISEASE SAMPLES AND REPAIRING DAMAGED TURF.

- Variable depth adjustment 1" - 4"
- Available in 4" & 5" round models
- 4" models ideal for extracting disease samples and turf repair
- 6" model great for damaged turf repair
- Thin blade is heat treated and zinc plated for clean cut

Round Plugger - Turf Repair/Soil Sampler 2"

Part # TRP-2

HAND PUSH OPERATED TURF PLUGGER/SAMPLER COLLECTS PLUGS IN TUBE STEM. IDEAL FOR SOIL SAMPLING AND DIVOT REPAIR ON GOLF GREENS.

- Variable depth adjustment ¼" - 4"
- Each plug is pushed up into tube as next plug is taken
- Plugger is zinc plated body and heat treated steel blade
- Solid steel construction for long life

3 Tine Aerator Part # T3TA-3

THE IDEAL TOOL FOR AERATING SMALL AREAS DUE TO COMPOSITION OR ADDING WATER PERCOLATION WHERE SOILS BECOME REPELLENT.

- Three ½" hollow tines
- Side-Eject hollow tines to prevent clogging
- Formed steel flat bar base with tubular "T" handle
- The choice of turf professionals for decades

LEVELING TOOLS

Level Lawn - Greens Keeper™ 30" - 36" - 40"

Part # TLLG-30K Part # TLLG-36K Part # TLLC-40K

GREENS KEEPER THE LIGHT WEIGHT OPTION IDEAL FOR SPREADING SCREENED TOPSOIL, SAND PEAT AND OTHER TOP DRESSING MATERIALS

- Industry standard for top dressing
- Features three open inner bars to catch small stones in the dressing
- Extra Heavy solid steel bars for extra rigidity (40" model)
- Super Heavy-Duty High Impact Resistant 72" Fiberglass Handle included

Level Lawn Pull Master™ 72"

Part # TLLP-72

PULL MASTER IS THE TOP CHOICE FOR LEVELING OR SPREADING ON LARGE/FINE FLAT TURF AREAS

- Multiple Rope Hole Attachments Provided to Control Ground Pressure Options
- Rope with Handles Provided for 1 or 2 Man Operation
- Heavy Duty Solid Steel Construction, Made to Last
- Heavy Enough to Move Large Areas of Material, Compact Enough for Easy Storage
- Nylon Rope and Special Grip Handles Included
- Can also be pulled by a vehicle

Profile™ Solid Metal Golf Sprinkler Nozzles Ultra-High Uniformity

Upgrade your sprinklers with Profile™, the ultra-high uniformity, water conserving, solid metal nozzles from Underhill®.

before

Golf Sprinkler with OEM Nozzles

August 14

Profile nozzles installed in problem area

**Use less water,
less energy and less
manpower and get
better course playability**

It's time to **replace** your nozzles!

You will see improved results immediately, save millions of gallons of water every year and improve the playability of your course at the same time...guaranteed.

after

Same Golf Sprinkler with Profile Nozzles

September 6

Uniform distribution restored, turf is green and healthy

Profile™ nozzles for Rain Bird®

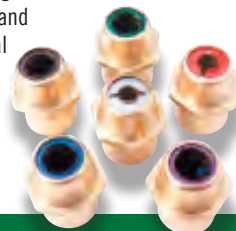

EAGLE 700 SERIES

Full Circle: Midrange/Close-in Nozzles

Part #	Nozzle Color midrange / close-in	Rain Bird Nozzle #s
R70028-RG	White / Gray	28
R70032-RG	Red / Gray	32
R7003640-GG	Blue / Gray	36/40 and larger

Look familiar? Poor performing Eagle 700 sprinklers are often the result of clogged and worn nozzles. Profile nozzles' solid metal construction and nozzle shape were scientifically designed to solve this exact problem. They simply don't wear out. And they don't clog. Upgrade your old golf sprinklers to better than OEM with Profile!

PRO'S CHOICE WETTING AGENTS

The "Smart" Solution for Greens...
Tees, Fairways & Roughs too!

**Retains Water
in the Root Zone!**

Keeps Green Surface Firm and Playable

Tournament-Ready®

100% ACTIVE Ingredient

PREMIUM PENETRANT SOIL SURFACTANT

No Need to Water Until Evening Irrigation Cycles

45 Years of Research and Development in Pioneering
The Most Cost Efficient & Effective Option On The Market

What Makes Tournament-Ready® So Special?

3 Key Components utilizing Smart Surfactant Technology™

Component #1: Quick wetting penetration of soils, plus moves water out of water saturated soils.

How does it do it? Immediately relieves LDS and wets the soil profile where most competitive products will not wet the soil immediately and efficiently.

Component #2: Moves excess water out and keeps doing it.

How does it do it? Tournament-Ready will reduce the surface tension and attraction of water molecules to each other, making water "spread and infiltrate". The effect will increase the downward movement of excess water out of the root zone while decreasing the upward movement of capillary water in the soil. This will remove excess water from the 12" zone of a USGA or California style green.

Component #3: Holds water in the right place where it should.

How does it do it? Relieves LDS in thatch that won't wet, but will not leave thatch permanently wet. It will dry down like any part of the green, but allow water to continue to re-wet the area when Tournament-Ready is in use.

Note: Tournament-Ready does not require watering in and is non-phytotoxic but to achieve the results mentioned above, it is recommended to water in the product following application.

Tournament-Ready®

ordering

Part # UHTUR02	TOURNAMENT-READY (2.5 Gal / 9.48 Liter Jug) Soil Surfactant
Part # UHTUR30	TOURNAMENT-READY (30 Gal / 114 Liter Drum) Soil Surfactant
Part # UHTUR55	TOURNAMENT-READY (55 Gal / 208 Liter Drum) Soil Surfactant
Part # UHTUR265	TOURNAMENT-READY (265 Gal / 1003 Liter Tote) Soil Surfactant

H2O Maximizer™ LIQUID

NONIONIC SOIL SURFACTANT, POLYMER RESIN BLEND

- Unique soil surfactant and polymer resin blend that can be tank mixed for spray application or injected directly into irrigation flow
- Surfactant ingredients provide initial soil wetting action while polymer resin adsorbs to soil particles for enhanced water retention
- Reduced watering requirements are achieved through surfactant's reduction of surface tension combined with polymer resin's attachment to soil particles for greater water holding capacity to guard against plant stress
- Polymer resin boosts water retention in soil to deliver enhanced residual activity

2.5 Gal / 9.48 L / 2 per case
30 Gal / 113 L drum

ordering

Part # UHHMAX02 H2O MAXIMIZER (2.5 Gal / 9.48 Liters Jug) Surfactant/Polymer Resin Blend
Part # UHHMAX30 H2O MAXIMIZER (30 Gal / 114 Liters Drum) Surfactant/Polymer Resin Blend

Medalist® Spray +

ECONOMICAL NONIONIC SOIL SURFACTANT BLEND FOR SEASON-LONG APPLICATIONS

- Medalist, when used in a scheduled, water management program, will eliminate turf localized dry spot and enhance turf quality while reducing watering frequency
- Medalist's lower active formula incorporates the same university tested ingredients found in Tournament-Ready Soil Surfactant to deliver comparable performance to leading competitive products at a reduced price
- Get the most out of rain and irrigation
- Saves money on water and energy costs

2.5 Gal / 9.48 L / 2 per case
30 Gal / 113 L drum

ordering

Part # UHMED02 MEDALIST (2.5 Gal / 9.48 Liters Jug) Soil Surfactant
Part # UHMED30 MEDALIST (30 Gal / 114 Liters Drum) Soil Surfactant

Hydro-Wet® Injectable LIQUID

NONIONIC SOIL AND TURF WETTING AGENT FOR IRRIGATION INJECTION

- Hydro-Wet Injectable improves infiltration and penetration of rainfall and irrigation water
- Minimizes water loss due to run-off and evaporation
- Formulated for use with irrigation system metering equipment
- Hydro-Wet's high affinity for water drives down surface moisture to avoid spongy turf and standing water
- When university tested in comparison to 10 leading competitors, Hydro-Wet provided superior performance at reducing soil repellency

ordering

Part # UHHYI30 HYDRO-WET INJECTABLE (30 Gal / 114 Liters Drum) Liquid Concentrate

30 Gal / 114 L drum

Tournament-Ready® Plus™ with Actosol® Pellets

PROVEN TOURNAMENT-READY FORMULA W/ ACTOSOL AND MICRONUTRIENTS

- A combination of Tournament-Ready proven formula but with the addition of humic and fulvic acid, and micronutrients
- Uniform moisture management (doesn't bind in the thatch layer)
- Increases soil moisture without causing "spongy turf" problems
- The multiple benefits of humic and fulvic acids, calcium, and iron

ordering

Part # UHTRPLPEL TOURNAMENT-READY PLUS PELLETS (8 oz / 227 gm pellet - 16 pellets per case)

Tournament-Ready® Pellets

PROVEN TOURNAMENT-READY FORMULA IN SOLID PELLET FORM

8 oz Pellet Size!
better value
than competitors

- Same University tested formula in solid pellet for supplemental treatments
- Treat small turf areas while hand watering using Underhill PelletPro applicator
- Inert binder is carrier for Tournament-Ready Soil Surfactant for metered hand watering
- Tournament-Ready Pellets help cool canopy temperatures of turfgrass during high heat, stress conditions
- Pellet jar can be inserted in pellet applicator reservoir to modulate soil surfactant output

ordering

Part # UHTRPEL TOURNAMENT-READY PELLETS (8 oz / 227 gm pellet - 16 pellets per case)

H2O Maximizer® Pellets

HOLD MORE PLANT AVAILABLE WATER W/ H2O MAXIMIZER PELLETS

- Increase irrigation and rain efficiency by enhancing plant available water
- Improve water infiltration and water holding capacity of soil
- Remains active in the soil for 4-6 weeks, then bio-degrades into natural materials
- Polymer resin delivers increased plant available water

ordering

Part # UHH2OPEL H2O MAXIMIZER PELLETS (8 oz / 227 gm pellet - 16 pellets per case)

Wet-Pell™ Tournament-Ready® Blocks

PROVEN TOURNAMENT-READY FORMULA IN SOLID BLOCK FORM

- Same Proven Tournament-Ready Formula in a large application wet well block
- Apply wetting agent w/ ease to large areas by dropping into your wet well
- Inexpensive & almost no labor
- Includes two 8 pound pellets

ordering

Part # UHTRPEL-8 2 TOURNAMENT-READY WET-PELL BLOCKS (8 lbs each / 3.63 kg block)

Salt Buster Pellets

NEW!

PROVEN SALT BUSTING FORMULA IN PELLET FORM

- SaltBuster is a highly effective penetrant that drives water through the soil to help leaching
- Calcium added for Sodium remediation
- Works great for spot treating areas with our PelletPro inline applicator added to our SpotShot™ sprinklers. Let leach overnight and see the results!

ordering

Part # UHSBPPEL SALT BUSTER PELLETS (8 oz / 227 gm pellet - 16 pellets per case)

PelletPro™

APPLICATOR GUN FOR SOLID WETTING AGENT TABLETS

Our heavy-duty surfactant applicator, high-flow valve and Precision™ Cloudburst™ nozzle combo comprises the finest wetting agent gun available. PelletPro™ accepts all wetting agent tablets and provides a high volume, yet soft spray for watering or applying surfactants to tight, hydrophobic soils.

PelletPro™ rotates pellets at one revolution per second (RPS) to evenly dissolve/apply wetting agent

features

- 35+ GPM to get the job done faster!
- Ultra Heavy-Duty construction: brass fittings, aircraft aluminum, stainless steel, precision engineered glass
- Pellet rotation (1 RPS) evenly dissolves/applies tablets

SPECIALTY PRODUCTS

Benchmark™

ALL SEASON FOAM MARKER

- This foam concentrate is specially formulated to deliver long lasting foam in a range of weather and field conditions
- This highly concentrated formula, when used as directed will produce thick, white, highly visible foam. Benchmark can be used with any compressed air foam marking equipment to provide long lasting foam deposits on turf or soil areas to avoid over-sprays or skips
- Benchmark is formulated with conditioners for hard water situations and can be used with foam colorants

ordering

Part # BMK01 BENCHMARK Foam Marking Agent (1 Gal / 3.79 Liters Jug)

1 Gal / 3.79 L jug
4 per case

1 lb / 456 gm jar
12 per case

Tank Cleaner™

DRY TANK & EQUIPMENT CLEANER

- Tank Cleaner is designed for cleaning tanks, lines and nozzles to remove pesticide, herbicide and fertilizer residues
- Tank Cleaner also removes light rust and dissolves deposit buildups while leaving a protective film that helps prevent corrosion
- Color dye in Tank Cleaner indicates ingredients are still active in solution

ordering

Part # TC01 TANK CLEANER (1 lb / 456 gm Jar)

Anti-Foam™

ANTIFOAMING AND DEFOAMING AGENT

- Anti-Foam is a fast, effective defoamer for use in suppressing foam, controlling foam reduces filling time and lessens overflow waste
- Anti-Foam improves spray performance
- Silicone and surfactant blend work in tandem to quickly dissipate troublesome foam that forms during agitation

ordering

Part # AF1Q ANTI-FOAM (1 Qt / 946 ml Bottle)

1 Gal / 3.79 L jug
4 per case

K-Klean™

LIQUID TANK CLEANER

- K-Klean is an effective cleaner for metal, fiberglass and plastic spray systems
- K-Klean aids in the removal of dirt, grime, grease, chemical and fertilizer residues from tanks and equipment
- K-Klean helps eliminate rust and scale and keeps costly equipment in ready-to-use condition

ordering

Part # KKLEAN01 K-KLEAN (1 Gal / 3.79 Liters Jug)

1 Qt / 946ml jug
12 per case

Bio-90™

NONIONIC SURFACTANT/TANK MIX ADJUVANT

- Use Bio-90 when accompanying pesticide label instructions recommend the use of a nonionic surfactant tank mix adjuvant
- Bio-90 optimizes the performance of turf fungicides, insecticides and herbicides
- Use Bio-90 when uniform spray coverage and penetration into the targeted plant surface is preferred
- Bio-90 contains rainfast ingredient to minimize wash-off
- Bio-90 contains an antifoam ingredient to suppress troublesome foam during agitation

ordering

Part # BI901Qt Bio-90 (1 Qt / 946ml Jug)

4 lb / 1.8kg jar
6 per case

Water FX™

DRY WATER CONDITIONER / ACIDIFYING AGENT ADJUVANT

- Water FX effectively sequesters hard water minerals such as calcium, magnesium and iron that can interfere with many pesticide active ingredients
- Water FX lowers spray water pH to ensure full effectiveness of many insecticides, fungicides and herbicide sprays that perform better in moderately acidic water
- Certain pesticide active ingredients will be more effective and are more readily available to the plant with the use of Water FX

ordering

Part # WFX04 WATER FX (4 lb / 1.8 kg Jar)

Liquid Applicators

LiquidPro™

APPLICATOR GUN FOR LIQUID WETTING AGENT

LiquidPro's chemical-resistant, UV-protected, lightweight siphon mixing system can cover 1000 square feet in less than a minute! With unmatched speed and uniformity, you can virtually "paint" your turf with liquid wetting agent, fertilizers, and micronutrients. Adjustable metering dial offers 10 additive settings including "Water Only."
LiquidPro requires minimum 50 Psi operating pressure to the inlet side of the unit to function properly.

ordering

Part # A-LPWA50K	LiquidPro™ Applicator Gun (with 1" NPSH x 3/4" GHT adapter) 
Part # A-LPWA50K-E	LiquidPro™ Applicator Gun (with 3/4" quick-connect adapter) 
Part # A-LPWWASHNK	LiquidPro™ Applicator Gun (with 1" NPSH x 3/4" GHT Adaptor) with RainPro Nozzle
Part # A-LPWWASHNK-E	LiquidPro™ Applicator Gun (with 3/4" quick connect adaptor) with RainPro Nozzle
Part # A-LPWAB-6	6-Pack of 32 oz. Polybottles and Carrier

RainPro™ Nozzle

Now available on
PelletPro and LiquidPro
 Applicator Guns!

Flo-Pro™ Inline

IN-LINE APPLICATOR FOR LIQUID WETTING AGENT

The lightweight portable solution to apply surfactant to tight hydrophobic soils. Also, ideal for liquid or soluble fertilizers and soil amendments. Easy connection to water source (quick coupler, HoseTap, etc). Just attach your favorite nozzle like the Precision Cloudburst or RainPro and your ready to go.

features

- Larger 1 gallon tank
- Made of high impact PVC
- Adjustable feed rate
- Can also apply fertilizers and soil amendments

ordering

Part # IHB-1010 Inline applicator includes coupling and On/Off ball valves

GRUND GUIDE by Underhill® Marking Systems

SPEED AND QUALITY OF PLAY...GOLF AS IT SHOULD BE.

You know Grund Guide for making premier yardage marking solutions. Now backed with the strength of Underhill® distribution and product development, you can have the highest quality and most complete yardage marking systems available today and into the future.

Sprinkler Head Yardage Markers

ENGRAVED CAPS

MODEL SPM 106 - TORO ENGRAVED CAPS:
Perfect-fit caps engraved and color filled for high visibility. Multiple number locations vary for lids with holes

GRUND GUIDE

Fairway / Tee / Range Disc Markers

Large 7 1/2" cap with big bold 3 1/2" standard yardage numbers. Ideal for fairway, tee and driving range marking. Optional 8" mounting pipe attachment available for secure installation.

FAIRWAY STANDARD DISC SYSTEM

Color-coded markers with bold 3 1/2" yardage number. Several system options available.

FAIRWAY CUSTOM OPTIONS

Markers can be customized to display specific yardage numbers, include logos, or custom design.

TEE BOX / DRIVING RANGE CUSTOM OPTIONS

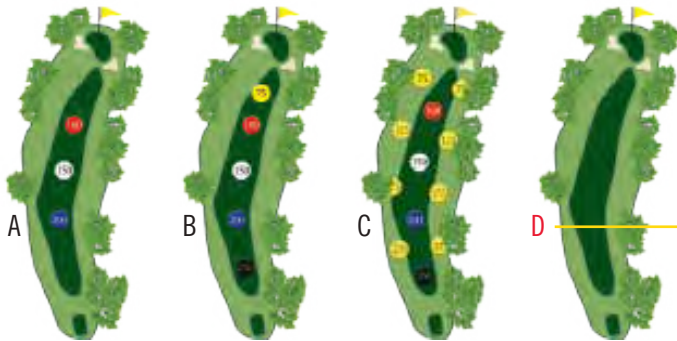

Markers can be customized to display specific multiple numbers, include logos, or custom design.

Disc Marker pictured with optional 8" mounting pipe (installs easily with standard cup cutter)

SYSTEM EXAMPLES

- A: 3 markers placed down the center of the fairway at 50 yard intervals
- B: 5 markers placed down the center of the fairway for greater coverage
- C: Markers placed on sides and center ("diamond" layout) for highest visibility
- D: Create a custom system with your choice of color and numbers/markings

Valve Box / Universal Markers

These engraved, anodized aluminum (no paint!) markers are ideal for isolation or control valves, satellites or other applications.
